FIG. 17  
【図17】

A 5x15 grid of 75 small, stylized, black and white images, possibly representing a sequence of characters or symbols. The images are arranged in five rows and fifteen columns. The first row contains 15 distinct symbols, including numbers and letters. The subsequent four rows contain more complex, abstract symbols that appear to be variations or combinations of the first row's symbols. The entire grid is set against a dark background with a grid of small white dots.
